Bed Tracking & Care Coordination Tools

Pilot Update: Bed Tracking and Care Coordination

What: BHA technology team ran a pilot with providers currently using EMResource to update their bed availability.

When: The pilot ran for 7 day, providers updated their bed availability once a day.

Why: We are preparing for a summer launch of bed tracking within a new system, this pilot helped us to gather final user feedback and usability scores for this new technology.

What's Next: We will share our findings here and provide more information on system launch timelines.
